## CITY MANAGER INSIGHTS

### *New Year, New Water Meters...*

The City of Canfield is currently in the first phase of our systemwide water meter upgrade project. In fiscal year 2020 and 2021 the City of Canfield utilized CARES Act Funds to implement and analyze an Automated Metering Infrastructure (AMI) "pilot-program". After having successful results and receiving positive feedback on the pilot program, the City plans to utilize the \$752,000 we will receive from the American Rescue Plan Act to install the AMI program throughout the City. This will be a three year process of replacing every utility customer's current water meter with a new "smart" meter, this will allow the city to remotely read customer's water meters. The benefits of this system will provide customers with more accurate water readings to identify abnormal consumption or possible water leaks. The City will be able to provide customers with a monthly utility bill and expand our customer service capabilities. You can find out more information about the project by contacting me by phone 330-286-0014 or email at

[wcalhoun@canfield.gov](mailto:wcalhoun@canfield.gov) ; additionally you can find out more about the AMI system and the utilization of ARPA Funding on our website <https://canfield.gov/american-rescue-plan-act-arpa/>

## A MESSAGE FROM THE CHIEF

I am pleased to announce that the Canfield Dispatch Renovation has been completed and is operational. The dispatch center renovation and upgrade project expanded the operational capacity of the dispatch center by increasing the number of dispatching stations from two radio consoles to four radio consoles. The expanded space also features enhanced and improved technology and most up to date communication (CAD) hardware and software including emergency medical dispatch (EMD).

The renovated and updated dispatch center allows our department to continue to provide outstanding dispatching services to our local police, fire, and emergency medical services, as well as providing and possibly expanding our services to neighboring communities.

The Canfield Police Department will host an "open house" event in the spring for the public to check out and tour the new expanded dispatching operation.

Charles Colucci**
